Chennai

Dear Sir,

I am really happy to share my feeling about the work you did in my house.

Actually after purchasing the new flat, we wanted to do wood work in our kitchen, wardrobes and lofts. Since we are new to Chennai we did not have any idea about whom should we approach for better quality work and best price. We enquired many places in the city and could not end with satisfaction. Finally we saw your advertisement in the net and approached you.

We are very happy about your quote and description of work. The work was excellent and you have completed the work in a week as per your commitment. The price was very nominal compared to industry. Hope you may remember after seeing your work in our flat, you got the next order from other flat owner of the same apartment.

Last but not least you are very courteous and honest in your approach.

Let your organization grow well further and further.

Thanks and regards,

T.G. UMA SHANKAR
